

ROBO CLIMBING

Autonomous or remote-controlled vertical/inclined climb challenge

Team Size	1-3 members	Entry Fee	Rs. 200
Prize	To be announced	Venue	To be announced

Objective

Teams build a robot that climbs a vertical or steeply inclined surface (rope, pole, or wall-like ramp) as high and as fast as possible within the time limit.

Robot Specifications

- Maximum robot dimensions: 25 cm x 25 cm x 30 cm (L x W x H) at the base.
- Maximum weight: 3 kg, including the battery.
- Both autonomous and remote-controlled robots are allowed.
- Climbing mechanisms (grippers, suction, magnets, wheels with tread) are allowed as long as they do not damage the climbing surface.

Climb & Scoring

- The climbing surface, angle, and height will be announced on the event day.
- Each team gets a fixed number of attempts (typically two); the best valid climb counts.
- Score is based primarily on height reached, with time taken as the tiebreaker.
- A fall or detachment from the surface ends that attempt.

General Conduct

- Participants must carry a valid college ID card at all times during the event.
- Any form of misconduct, use of abusive language, or unsporting behaviour will lead to immediate disqualification.
- Decisions of the judges and organizing committee are final and binding.
- The organizers are not responsible for any damage, loss, or injury during the event; participants take part at their own risk.
- Participants must report to the venue at least 30 minutes before their scheduled slot.

Safety Guidelines

- Sharp tools, open flames, lasers, and hazardous chemicals are strictly prohibited unless pre-approved by the organizers.
- All electrical connections must be properly insulated; loose wiring may lead to disqualification on safety grounds.
- Batteries must be handled with care; short-circuits or overheating incidents must be reported immediately.
- Safety gear (gloves/goggles, where applicable) is recommended and may be mandatory for certain sub-tasks.

Disqualification Criteria

- Missing the reporting or check-in deadline for your slot.
- Using a robot/device that does not meet the size, weight, or component specifications above.
- Remote interference with another team's device or run.
- Plagiarism or use of an undisclosed pre-built solution where original work was required.
- Any attempt to bribe, threaten, or unduly influence judges or coordinators.

These rules are provisional and general in nature. The organizing committee may issue clarifications, additional rounds, or minor changes closer to the event date; the latest version will always be posted on the PLASMA 2K26 website.
